ASHUTOSH VATS

Computer Science Engineering Student - AI Specialization

Vadodara, Gujarat • ashutoshvats070@gmail.com • 6200029278 • Ashutosh Vats | Portfolio

SUMMARY

Motivated and results-driven Computer Science Engineering student specializing in Artificial Intelligence with strong skills in Machine Learning, Data Analysis, Software Development, and Web Technologies. Experienced in working with real-world geospatial datasets, ML workflows, data pipelines, and Python automation. Seeking an internship/entry-level position to contribute to impactful AI/ML projects.

EDUCATION

B.Tech. Computer Science & Engineering (AI) - Parul Institute of Technology, Gujarat | 2022 - 2026 | CGPA:7.91/10

HSC – Narayana Junior College | Hyderabad, Telangana | 2021 | 85.4/100

SSC – Narayana Conept School | Hyderabad, Telangana | 2019| CGPA: 9.60/10

SKILLS

Programming: Python, JavaScript, Java

AI/ML: Machine Learning, Deep Learning, Data Preprocessing, Model Training, NumPy, Pandas, Scikit-learn, OpenCV

Data & Databases: SQL, MS Excel, Database Management, Data Quality Assurance

Web Development: HTML5, CSS3, JavaScript

Tools: Git, Microsoft Access

Software Testing: STLC, QA, Documentation, Agile methodology

Other: Cloud Computing, Problem Solving, Data Structures & Algorithms

PROJECTS

College AI Assistant

Link: https://chat-bot-six-neon.vercel.app
Built a web-based AI assistant for college students using front-end technologies and NLP APIs to automate query responses.

Link Shortener

Link: https://link-shortener-five-wheat.vercel.app
Developed a URL shortener application improving long-link usability with a clean UI and fast processing.

Currency Converter

Link: https://currency-converter-indol-xi.vercel.app
Created a real-time currency converter with API integration for up-to-date exchange rates.

Expense Tracker

Link: https://expense-tracker-five-neon-91.vercel.app
Designed a financial tracking tool enabling users to log, categorize, and manage expenses.

EXPERIENCE

AI/ML Intern | BISAG-N, Gandhinagar, India (January 2026 – Present)

- Worked on machine learning and deep learning models for government and geospatial applications.
- Performed data collection, cleaning, and preprocessing on large satellite and geospatial datasets.
- Automated workflows using Python, NumPy, Pandas, Scikit-learn, OpenCV, and basic GIS tools.

CERTIFICATIONS

- Introduction to AI — Infosys Springboard
- JavaScript — Infosys Springboard
- CSS3 — Infosys Springboard
- HTML5 — Infosys Springboard
- Introduction to Cloud Computing — Infosys Springboard
- Networking and Web — Infosys Springboard
- English Communication — Infosys Springboard
- Additional technical courses from Cisco and IBM

KNOWN LANGUAGES

- English
- Hindi

PERSONAL INTERESTS / HOBBIES

- Photoshop, Internet Research, Documentaries

PERSONAL DETAILS

- Date of Birth: 14/03/2004
- Marital Status: Single
- Nationality: Indian

EXTRA CURRICULAR ACTIVITIES

- Participated in technical workshops and seminars
- Active member of college technical club
- Involved in organizing student activities and events
